

Our conviction

“ ACTING for people,
life & the Earth means
ACTING for the greatest
number of people,
ACTING for the long term,
ACTING with the certainty
that the research topics we
tackle today will positively impact
the future for all of us. ”

“ Working
towards
a better world ”

INRAE
science for people, life & earth

Our brand
INRAE

Our values

1

The common good

Our work is meaningful and addresses societal and human challenges across all regions, in France and around the world.

2

A sense of community

We embrace both teamwork and autonomy, knowing that each and every one of us is fully committed.

3

The culture of diversity

We share an infinite scientific curiosity and have a natural window into the world that enriches our communities and knowledge.

Our strengths

Specialized research organization, world leader in "agriculture-food-environment"

Leading French institute for research on continental and surface waters

First French research organization awarded the "Equality-Diversity" & HR Excellence in Research Labels

First French research organization with a directorate dedicated to open science

The only organization whose research spans "from farm to fork"

Expertise in biodiversity knowledge and management, from the mountains to the coast, from forests to agricultural landscapes

First French public-sector employer committed to a low-carbon future

France's scientific leader on natural hazard prevention
